

Peace chain Münster - Osnabrück 2023

Peace now - from peace hall to peace hall

Peace - Justice - Climate protection

In 2023 Münster and Osnabrück will commemorate the signing of the Treaty of Westphalia 375 years ago - the birth of international law.

On 24 February 2023, the anniversary of Russia's invasion of Ukraine, we want to link the two cities with a peace chain. The peace chain is a symbol and food for thought for the demand for peace treaties with respect for territorial sovereignty in all armed conflicts in this world.

We call on the people to set a common sign in a peace chain between Münster and Osnabrück for the desire to

- to lay down all weapons of war,
- negotiations with the aim of lasting peaceful, democratic coexistence,
- worldwide disarmament, especially the abolition of nuclear weapons under the supervision of the United Nations,
- the concentration of resources on the protection of the climate and the environment, and the commitment to the right of all people to a dignified life.
